The JLC Solutions SR61 vehicle mount charger – holder; a complete one piece solution.

JLC Solutions proudly announces our new vehicle mount charger - holder for the Intermec SR61 cordless scanner made specifically for lift truck installations.

This charger – holder comes complete with a multi-position mounting bracket and includes a shock dampening system to hold the scanner securely while it is being charged.

The scanner can be placed in or removed from the charger with one hand without the use of release buttons or levers.

Installation is quick and easy with no special adapters or special cables required. One model fits all 24 volt, 36 volt and 48 volt lift trucks. There is also a model available for 12 volt installations.

Part Number	Description	
661	Vehicle Mount Charger for SR61; 24, 36, & 48 volt	RoHS complaint
661-12	Vehicle Mount Charger for SR61; 12 volt	RoHS compliant
